PROJECTS AND UNIQUE ATTRIBUTES [5]

Canadian Valley Technology Center (CV Tech) has provided high-tech educational opportunities for adults, high school students, small businesses and large corporations since 1970.

CV Tech serves mostly Canadian and Grady counties in central Oklahoma. The school district has main campuses in Chickasha, El Reno and south of Yukon. The district also operates a training center in Tuttle.

Canadian Valley features more than two dozen full-time career offerings, short-term adult and continuing education classes and specialized corporate training. The school also features fully networked computer labs and classroom space to meet all organization and company needs.

CV Tech offers a variety of programs and services to meet the unique needs of the population within its district. Programs include Project Connect, KEYS Center, Academic Center, Special Needs Services, Interactive Educational Television (IETV), and flexible industrial training. The El Reno campus also offers Wind Energy Technician training, in which wind technicians are trained to service wind farms statewide.

Secondary students who live in CV Tech's school district and attend a public, private, parochial or charter school, or are home-schooled are eligible to attend tuition-free. Tuition is also free for adults under age 24 who reside within the district.
