Law, Public Safety, Corrections and Security
Course Descriptions

(Course content may be taught as concepts within other courses.)

#1

Introduction to Law, Public Safety, Corrections and Security Careers: A course designed to give students an overview and history of careers in the field of Law, Public Safety, corrections and Security. Areas of study include but are not limited to corrections services, emergency and fire management services, security and protective services, law enforcement services and legal services. A job-shadowing component is included and this course gives the student a strong foundation for the law, public safety and security pathways. This may be taught as a career exploration course in conjunction with other foundation Career Cluster courses.

#3

Information Technology Applications: Students will practice ethical use of technology tools to manage personal schedules and contact information, create memos and notes, prepare simple reports and other business communications, manage computer operations and file storage, and use electronic mail and Internet applications to communicate, search for and access information.
