Streaming Futures

<http://www.kidzonline.org/streamingfutures/>

“Streaming Futures” is a free, web-based show dedicated to helping teens choose the right career path. This site has more than 90 streaming video interviews with celebrities, business leaders, athletes, musicians, and career professionals from all different industries.

Students choose a category and click on “Stream” to hear how these people started down the path to where they are today. The results from the “Career Quiz” will show students what areas they are interested in. They can watch videos of people that have the same interest.

Good Fit or Not

Distribute different occupational titles to students. Students discuss whether or not the occupation is the correct choice for them. Have students use the same occupation and discuss what type of training and school subjects were necessary to reach that occupational goal.
