How many college credits do you have? There are a variety of ways to earn college credit while still in high school. Cooperative agreements, cooperative alliances, concurrent enrollment, Advanced Placement, and College-Level Examination Programs allow you to try college-level work. Taking college courses in high school will provide a learning experience; students gain study skills, have less seat time in the classroom, and more money in their pockets. Fill in the number you have or will receive by the time you graduate from high school.
