

Elementary Career Information

March 2007

Counselor Corner

<http://www.fcps.k12.va.us/ss/StudentServices/Guidance/gdelemhm.htm> The following Web page links explain the program, the counselors' qualifications and responsibilities, and the benefits that students, parents, school staff, and the community receive from this program.

If you have been thinking about a brochure explaining your guidance/counseling program, this site will provide a starting point to show the benefits of your program.

Career Highlight

Fire Station Virtual Tour

www.kent.k12.wa.us/curriculum/vtours/fire/tour.html

Students writing assignment took them to a fire department to capture firefighters at work. Students may view pictures as you or they read about the career of a firefighter.

The first graders prepared questions for three firefighters during an interview at their school. A sampling of the questions and answers are located at this site.

Why do you have fire trucks that are at a house when there isn't a fire?

What should you do when you see kids playing with matches?

Do you have to eat fast?

Check Out Resources

Information Commons loans materials to Oklahoma educators, ask for a bibliography on a specific topic.

<http://www.okcareertech.org/informationcommons/index.html> Select "Search Our Collection" or "Bibliographies."

371.425 SAH Alphabet careers: a career awareness program for grades 2 through 5, Sahlin, Judith A.

Students work with 26 alphabet cards featuring two careers beginning with each letter. The Leader's Guide describes games and reproducible activity sheets.

Lesson plans located at:
