Not in Labor Force	2%	4%	3%

PROJECTS AND UNIQUE ATTRIBUTES⁵

Southern Tech opened in August 1966 as one of the first rural Career and Technology Centers in the state. More than 50 years later, Southern Tech continues to provide exceptional education and training services to its customers.

Students in full-time program majors, adult career and development classes, and business/industry clients all benefit from Southern Tech's state-of-the-art equipment, modern classroom facilities and highly qualified instructors. Curriculum is competency based with a focus on trade specific certification attainment. In addition, some programs offer AP level high school credit and the Dental Hygiene program is aligned with a bachelor's degree program with the University of Oklahoma.

New this year are two very different programs; Pre-Engineering, which is targeted to prepare high school juniors and seniors for successful entry into university schools of engineering, and Heavy Equipment Operation, which certifies students on the operation of earth moving equipment. Other programs address the needs for various automatic manufacturing processes or the vast service industries including aspects of health, building trades, transportation repair, computer applications, biosciences, cosmetology and many more.

Secondary students residing in the Southern Tech district are eligible to attend tuition free. Adult students may be eligible for financial aid, individual scholarships or the new Accelerated Independence Scholarship.

Definitions of all terms can be found in the overview at the beginning of this document.
