

Dr. Marcie Mack is state director of the Oklahoma Department of Career and Technology Education. She became ODCTE's eighth state director when she was promoted from interim director in 2015. Mack came to the state department in 2013, when she was hired as deputy state director/chief operations officer.

Amid the state's ongoing economic challenges, Dr. Mack continues to advance CareerTech's mission of helping Oklahomans succeed in education, in the workplace and in life. For more than 25 years, she has worked to meet the needs of Oklahoma's workforce and encourage continuous improvement. Mack has helped create numerous partnerships and advisory committees with businesses and industries, students, educators and military personnel.

Under Mack's leadership, Oklahoma CareerTech has adapted to the changing needs of the state's workforce, making the CareerTech system the cornerstone for workforce development in the state.

In 2017, Mack received Advanced CTE's 2017 Star of Education Rising Star Award, a national award given to a state CareerTech director who displays unequivocal commitment to the goals and overall mission of Advance CTE. She been a strong advocate for students, focused on providing high-quality educational opportunities for Oklahomans.

Before coming to the state department, Mack served in various capacities at Autry Technology Center, including support, instruction, information systems and administration. She has been involved in various community organizations and served in leadership roles within local and state organizations.

Mack earned her doctorate in educational administration and leadership from Oklahoma State University, where she also completed her master's degree in telecommunications management. She earned a Bachelor of Science degree in education at OSU and has a true passion for education.

Dr. Mack and her husband, Curtis, have three children and reside on a farm outside of Drummond, Oklahoma.
