

Oklahoma Bid Assistance Network

Oklahoma's Statewide Procurement Technical Assistance Center (PTAC)

The Oklahoma Bid Assistance Network (OBAN) will lead you through the maze of government procurement. This network, established in 1986 by the Oklahoma Department of Career and Technology Education, trains Oklahoma firms to successfully compete for and perform government contracts. Services are delivered from 16 Technology Centers across the state.

Local Bid Assistance personnel/PTAC Counselors will assist you in locating bidding and subcontracting opportunities in manufacturing, construction, services, and research and development. They will help you develop approved quality assurance and inspection systems. The Network provides assistance in locating and obtaining federal and military specifications and standards, acquisitions regulations, and other technical information cited in bid solicitations.

Protect yourself from missing valuable opportunities. OBAN provides detailed information on the goods and services that government agencies are buying today and provides rapid access to valuable research information, including information on previous buying trends. Call your nearest local Bid Assistance Center today for more information. <http://www.okbid.org>
