

Lincoln Electric Supports Education

Education Resource & Purchasing Portal

On July 1, Lincoln Electric will launch its new Education Resource & Purchasing Portal¹ to educational institutions. The new comprehensive portal provides educational materials and resources to teach future skilled workers the craftsmanship of welding.

The web-based all-access portal has the welding resources you need - retrieve educational and safety materials, view videos and training documentation, and obtain exceptional pricing on premium consumables.

HERE'S HOW THE PROGRAM WORKS:

Qualified Schools² can register to participate in the Lincoln Electric Education Resource & Purchasing Portal. Tax exempt organizations will be required to upload an exemption certificate at the time of registration.

Log on to myLincoln to place online orders for welding consumables, personal protection gear, expendable parts and accessories. Special program pricing applies to online orders only. During the checkout process, select your preferred partner from a list of local eligible distributors. (One distributor per school location)

Lincoln Electric will ship the order directly to your school. Receive Free Standard Shipping of Online Orders greater than \$500 for the contiguous United States.

ORDERING IS EASY!

Visit lincolnelectric.com/education to start the registration process.

¹ All products are intended for education purposes. Participating educational institutions may not resell to any third party. Program available only in the continental United States.

² A Qualified School is an educational facility that teaches welding. This excludes manufacturing customers with in-house welding programs.

Benefits:

- » Access to a variety of classroom training and safety materials
- » Stream educational videos from a secure and approved portal
- » Exclusive educational pricing on Premium Consumables as low as a \$1/lb.
- » Special pricing on personal protection gear, expendable parts and Magnum[®] accessories
- » 24/7 online order process and access to review history and tracking information
- » Ability to affiliate online purchases with a participating distributor
- » Instant Credit Limit applied to your account for immediate purchasing
- » Free Shipping on Online Orders greater than \$500 for the contiguous United States (Standard Shipping Only)

For questions or inquiries about the program, call **888.610.1095**
