“[Connect 2 Business] helps to know which businesses you’d like to interview with and work for. It’s helpful while you’re still in school versus when you graduate and you’re trying to find a job.”

POWERFUL DATABASE MANAGEMENT

Bringing it all together with real data.

• The powerful Kuder Administrative Database Management System® (ADMS) supports tracking real-time data and progress.
• Allows for curriculum, workforce, and economic development planning.
• Eases **accountability** reporting.
• Includes **communication tools**, data and report export options, and system training materials.
• Facilitates implementation of the *Direct Your Future™* classroom curriculum.
Direct Your Future

Direct Your Future™ (DYF) is an 11-module, comprehensive career development curriculum for middle school and high school students. Curriculum materials are available online for download and feature lesson plans, resource files, classroom activities and homework assignments, and instructional handouts to help students with their education and career planning. A parent’s guide, a tool to encourage parents to take an active role in their child’s career journey, is also included for your use.

Each module contains a lesson plan - including resource materials, handouts, and activity sheets to be used in conjunction - and a PowerPoint presentation that you may download from the links below. You may print those materials directly from the PDF as needed.

If you should have any questions about DYF, please contact our Client Engagement staff at 877.999.6227 or email us at clientengagement@kuder.com.
