CIMC

Career Exploration Guide
© 2014 CIMC
CS3205 Workbook (set of 10) $98

Students in grades 6-8 connect what they are learning to the world of work. An interest inventory and student activities help students to see the importance of preparing for a career.

Career Focus

CS9003 Workbook See store.okcimc.com for price.

Navigating Your Future is an update to the Through the Jungle curriculum. This revision has a new look and theme. It includes updated advice on job search techniques, interviewing via phone and live video, interview attire, and more. Includes samples of cover letters and resumes along with forms students can use to prepare their own documents. It also offers advice on how to answer tough questions and follow up after an interview.
