ADMINISTRATIVE REGISTRATION

Follow these steps to create your Kuder Administrative Database Management System® (ADMS) account.

- Go to www.okcareerguide.org.
- Click on the Create an Account button, select I am an administrator or educator, and click Next Steps.
- Click Continue after confirming your user type.
- Complete the registration page, including entering your Organization Access Code and Password. Write your username and password here for future reference.

Username: ____________________________
Password: ____________________________

- Click Register to complete the process.

STUDENT/ADULT USER REGISTRATION

Follow these instructions to get your students/clients started using Kuder Journey.

- Go to www.okcareerguide.org.
- Click on the Create an Account button, make a selection from the I am drop down menu, and then click Next Steps.
- Complete the four-step registration process, and click Sign Me Up to access the Journey home page.
As individuals register for Journey, they choose whether they are a student or a job seeker/career changer. Then, students select their grade level and job seeker/career changers identify with a particular user type (i.e. Veteran). Individuals may update their account type at any time in the Account Settings area of the system.

User Types

Menu options not marked with a colored dot indicate availability for all user types.

- A graduate, just out of school looking for my first full-time job
- A laid off worker and/or a worker seeking a job within the same occupation
- A worker exploring a change to an entirely different occupation
- A veteran or active member in the military
- A person with a disability
- An ex-offender
- A retired person seeking another job or volunteer work
- A person going back to school to finish my degree
Journey provides a variety of assessments and resources to help college students and adults prepare for their education, career, and a brighter future.

Take An Assessment
No matter what life stage an individual is at, the career planning process starts with learning about oneself. Journey provides students and adults access to three research-based assessments — the Kuder Career Interests Assessment®, the Kuder Skills Confidence Assessment®, and the Super’s Work Values Inventory-revised. These assessments kick-start career exploration and ultimately encourage more satisfaction and success.

Explore Occupations
Students and adults can imagine a brighter future by exploring occupations from more than 1,000 included in the O*NET database. If users are looking to transfer skills to another job, find a job related to their college major, or simply start the search from scratch, Journey allows them to search and narrow a list of occupations that are right for them.

Plan For Education
Journey users have opportunities to shine at any life stage. To consider new or additional education and training options, students and adults can align the career possibilities they are interested in with related educational requirements by determining a future path and learning about financial aid assistance.

Plan For Work
The system prepares users for the job search process by providing information about applications and interviews. Users can access their My Portfolio Items for additional preparation such as job search tools to create resumes and cover letters and collect references as well as upload documents and build a shareable e-Profile.

Find A Job
It is important to understand how to find a job. The system provides users with guidance on searching for openings and researching employers.

My Favorites
The My Favorites section helps students and adults envision their future success. Users can use the My Favorites to store their favorites work values, clusters, and pathways; occupations; schools; majors; person matches; and financial aid sources. Notes documented throughout the system are also stored here.
