

For as long as I could remember, I have always been a leader. I love to inspire and to create. I think the most important thing to note when you are a leader is that you do not lead, but that you serve. Helping others establish their goals is the drive that keeps me going. I am Raevyn Bonewell, and I am running to be your next Oklahoma HOSA State Officer.

I am currently enrolled in my second year of Health Careers Certification class, studying to become the best nurse that I can be. My first goal is to work on the Pharmacy Technician curriculum. Getting this certification is merely a stepping stone toward becoming a Registered Nurse. The Pharmacy Technician curriculum will help me be better prepared for nursing and have a clearer understanding of medications before becoming a nurse.

I believe that I would be a good fit for an Oklahoma HOSA State Officer because I believe in change. I would love the opportunity to have an impact in somebody's life and motivate others to be the best they can be. As a State Officer, I will promote leadership skills and staying on task. I will always be diligent and reliable, and I will be positive while doing so. This is important because becoming a State Officer comes with the responsibility of being a role model, and a team player, which is necessary in the health care profession. I find this aspect important because as a nurse, you must learn to work together with others, and listen to the input of your coworkers.

HOSA to me is a way for students in the health profession to find their future and meet their goals. At Spring Leadership 2018, I chaired for a competition and met many people while learning how the whole process works. HOSA has opened so many doors for me, and I am so excited for the possible opportunity to represent this organization. Please remember to vote for Raevyn Bonewell as your next Oklahoma HOSA State Officer!
