Active volunteer at local hospital, Academy Team, NHS Volunteering	

Offices Held in Organizations Other than HOSA:	
N/A	

What other commitments will you have during this year?	
The main extracurricular commitment that I have is my volunteering job, where I volunteer for about 8 hours on the weekend every other week. Performing the to school, I am on the academic team and practice once a week on Fridays for 1.5 hours. Most of my time outside of school hours is spent completing school work because of my AP course workload. My various other commitments in other clubs are not extremely time heavy, and I have plenty of time available to dedicate to HOSA outside of my schoolwork and extracurricular activities.
