

I never thought that enrolling at my local tech center would lead me to the ample amount of opportunities I've been given at Oklahoma HOSA. Through HOSA, I've solidified my choice in pursuing my passion in the healthcare field.

Hi, I'm Luke Fourroux. After becoming the Chaplain of my local HOSA chapter last year, I was given the opportunity to attend the Fall Leadership Conference. Saying that I was just "blown away" by the environment would be a massive understatement. I found myself drawn the most to the State Officers, and knew at the moment I saw them I wanted to follow in their footsteps.

After being invigorated at the conference, I was a member of the Creative Problem Solving Team that won first place at SLC last spring. The skills I've gained through HOSA are unparalleled to any other activity I've been involved with. I've learned how to be an exemplary leader and an effective team member. And that's just the tip of the iceberg of everything that HOSA has to offer.

The incredible environment of Oklahoma HOSA as a whole and the State Officers have inspired me to unlock my own potential; and I want to help every member of this organization unlock their potential as well. Vote Luke Fourroux for Oklahoma HOSA State Officer!
