

EMT

COMPETITOR SCENARIO

Situation:

You are called to the scene of an auto accident by another unit. Upon arrival, the lead paramedic of the other unit directs you to a compact car with moderate damage to the front-passenger side door. He explains that the 35-year old driver is your patient, because they have one of a more critical nature in the other car. You find the patient lying supine in the road.

Patient has paradoxical breathing on the right side of the chest and severe arterial bleeding to the right lower leg artery.

Skills to be performed:

- I Patient Assessment Trauma
- V Bleeding Control / Shock Management

Total Time = 12 minutes

This skill requires a patient
